FRANKFURT

Messe Frankfurt Invites the Mexican Industry to Automechanika Frankfurt 2026 and Introduces New Intelligence Tools for the Aftermarket Together with INA and ARIDRA

Mexico City, July 8, 2026 – During INA PAACE Automechanika Mexico 2026, Messe Frankfurt highlighted the importance of **Automechanika Frankfurt 2026**, which will take place from **September 8 to 12, 2026**, in Frankfurt, Germany. The event is expected to welcome approximately **4,500 exhibitors from more than 80 countries** and tens of thousands of international visitors. The show will feature new formats such as **HighTech4Mobility**, **Innovation4Mobility**, and the **Future Mobility Park**, with a strong focus on innovation, sustainability, electromobility, and specialized training.

Olaf Mußhoff, Director of Automechanika Frankfurt, emphasized: **“Automechanika Frankfurt is where the trends that later shape markets such as Mexico are defined. That is why we look forward to welcoming the Mexican industry in 2026.”**

Following this, Gabriel Padilla, Executive Director of the **Industria Nacional de Autopartes (INA)**, presented the key findings of the **INA Aftermarket Monitor**, a tool that provides strategic information on market value, employment trends, and demand indicators within the sector.

Meanwhile, Norma Elías from **ARIDRA** shared the results of the **ARIDRA-INA Aftermarket Industry Confidence Index**, which measures the sentiment and expectations of key players across the distribution chain.

“These joint initiatives strengthen decision-making based on reliable and timely data, contributing to the growth and professionalization of the Mexican aftermarket,” the three organizations agreed.

The conference concluded with a Q&A session, confirming that both indicators will be published on a regular basis.
